## General Line Internal Pigmented Coatings

|  |                |
|--|----------------|
| PIE-1000 off-white pigmented internal                    | Epoxy modified |
| PIE-1005 buff pigmented internal, high scratch           | Epoxy modified |
| PIE-1006 brown pigmented internal, high scratch          | Epoxy modified |
| PIE-1007 matt buff pigmented internal, excellent pop-off | Epoxy modified |
| PIE-1030 buff pigmented internal, latex resistant        | Epoxy modified |
| PIE-1050 white pigmented internal, food                  | Epoxy modified |

## General Line Internal Clear and Coloured Coatings

|   |             |
|---|-------------|
| CIE-5601 clear internal and external deep drawable  | Epoxy based |
| CIE-5603 clear internal, latex resistant            | Epoxy based |
| GIE-4000 standard internal gold                     | Epoxy based |
| GIE-4015 food+GL internal and external gold lacquer | Epoxy based |
| GIO-5000 gold Organosol                             | PVC based   |
| PIE-2010/2020/2030/2040/2050 aluminised internals   | Epoxy based |

Contact your local SouthCoat representative for the full portfolio of general line products.

Many internals do have food contact status.

The range of lacquers and coatings is continuously updated and extended.
